

Dr. Stephen Foster
Professor and Head,
School of Civil and Environmental Engineering
UNSW Australia

Professor Foster is Head of School, Civil and Environmental Engineering, UNSW Australia. He is a Fellow of Engineers Australia, Honorary Member of the CIA, a member of the Standards Australia committee responsible for the development of the Concrete Structures Standard and is elected Deputy Chair of the Technical Council of the International Federation for Structural Concrete (*fib*). Dr Foster has over 280 publications in the field of structural concrete, with textbooks on Reinforced Concrete and Prestressed Concrete. His main research interests are in the fields of bringing new materials technologies to the design concrete structures.
